AFE/PO or Project code# <input type="text"/>	

Site type requested

Site type *

Start date* End date if temporary site

Number of people on site*

TEMPORARY SITES ARE \$6 PER DAY/PER LOCATION - BILLED QUARTERLY

Any temporary site number can be 'updated' and used at a new location.

When the site is closed, the site number is still yours to use for up to 365 days. If you haven't updated your site by day 366 the site number is returned to the pool and reissued.

Temporary sites can only be registered for a maximum of 30 days and must be updated and extended monthly

PERMANENT SITES ARE \$150 PER YEAR - BILLED ANNUALLY

A permanent site CANNOT MOVE from location to location.

All information should be kept up to date monthly.

Surface Location

Region

LSD: Subsection - Section - Township - Range - W Meridian M

STARS Industry Services will register, update and/or close sites listed on this form **within 24 hours of receipt** and within that same time frame will E-mail this form back to you with new site numbers entered, and/or confirmation that your update/close site request has been completed

Registering your site with the STARS Emergency Link Centre (ELC) does **not guarantee STARS will fly to your location.**

This is a physician led decision that is based on injuries, weather and aircraft availability

If you need your site registered immediately, please register your site by calling the STARS Emergency Link Centre (ELC) @ 1-888-888-4567 (Option 2) available 24/7

Registering your site with STARS complies with Alberta's Occupational Health & Safety (OH&S) guidelines but does not replace the OH&S requirement for a transportation plan

The STARS ELC is not a replacement for 9-1-1 or on-site medical services
